

We are singularly focused.

PFAS-free water in every community.

Sentinel specializes exclusively in drinking water PFAS treatment, delivering fully customized, turnkey solutions built around your water chemistry, your regulatory requirements, and the people you serve. We bring the engineering expertise and technical innovation to solve even the most complex contamination challenges and the responsiveness and personal care to make sure you feel supported every step of the way.

Four Pillars of PFAS Treatment

We offer a complete, single-source pathway—from pilot data to long-term media renewal.

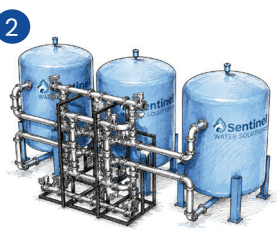

1

Model It Modeling & Pilot Testing

- ◇ Pilot skid sales & rentals

- ◇ Proprietary RLSC method

2

Build It Custom Treatment Systems

- ◇ Novel arrangements
- ◇ Highly configurable
- ◇ OPEX efficient

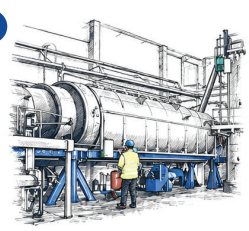

3

Maintain It Media Services

- ◇ Media exchanges
- ◇ Full vessel swaps
- ◇ Backwash management

4

Renew It Reactivation & Disposal

- ◇ Regulatory compliance
- ◇ Risk mitigation
- ◇ Stock management

PROPRIETARY TECHNOLOGY

Sentinel's patented **RLSC method** and patent-pending **Roughing Filter™** configuration deliver industry-leading PFAS removal efficiency – innovations you won't find anywhere else.

THE SENTINEL DIFFERENCE

A partner built for the complexity of PFAS.

Exclusively PFAS	Customized, Turnkey Solutions	Drinking Water Expertise
We are singularly focused. Our depth of PFAS knowledge, regulatory requirements and engineering expertise bring a thorough understanding of treatment technology to every customer.	Every water system is different, and so is every solution we deliver. Whether it is temporary or permanent, our fully customized, turnkey PFAS treatment systems are built around your water chemistry, your specific needs, and your community.	We are built from the ground up to serve drinking water system owners — our people, our expertise, and our processes are all designed around the specific demands of your world. We speak your language, understand your challenges, and are singularly committed to your success and the health of the communities you serve.

FLEXIBLE SOLUTIONS FOR EVERY BUDGET

PFAS treatment requirements are putting real financial pressure on water system owners. Sentinel makes compliance more accessible with flexible rental, lease, and purchase options — so you can choose the path that fits your timeline, your budget, and your community's needs.

- **Rent** — Ideal for short-term compliance needs or pilot programs before committing to a permanent solution.
- **Lease** — A predictable, lower-cost alternative to outright purchase, with full access to Sentinel's service and support.
- **Purchase** — For utilities ready to invest in a permanent, custom-engineered PFAS treatment system built to last.

Whatever your situation, Sentinel will help you find the right fit.

Supported by Sentinel

Whether you prefer hands-on Sentinel support or a trained local team, we'll make sure your system runs smoothly from day one.
